My Statement,

(b) My membership in Netflix dates from May 21, 2012.

(c) Grounds of my objection: One of the features of Netflix which makes this service of greater value to me is coupling my tastes with the product inventory providing me with opportunity to evaluate what I have been served thus allowing Netflix to offer other inventory items which I might find of interest. This service is of benefit. Since I am not viewing child pornography or terrorist training materials I feel that my viewing is both legal and moral.

(d) No documents proffered.

(e) I do not intend to attend any hearings unless by subpoena for telephonic participation.

I certify under penalty of contempt that the above statement is mine without duress and is a true and accurate statement of my beliefs and feelings.
